MEDIA RELEASE – WEDNESDAY 22nd September 2010

Cancer Services – a Win for the North West

AMA Tasmania welcomes the decision by the Hon. Michelle O'Byrne, Minister for Health, to fund two new medical oncologists for the North West and to investigate the provision oncology services in the home.

This will bring the level of cancer services in the North West to that in other parts of the State.

AMA Tasmania would like to see the full integration of cancer services in the North and North West as is being developed in the South.

Attention must also be paid to transport, accommodation and financial support to cancer patients and their families.

Dr. Michael Aizen, President, can be contacted on 0408339351 for further comments.
